Warm reminder: When installing, tighten the screws to about 70% and then tighten them all the way after the installation is completed!

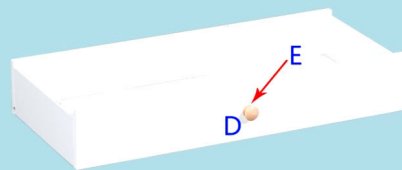

<3> First insert the drawer bottom plate, then rotate the eccentric bolt clockwise to lock the plate.

<4>

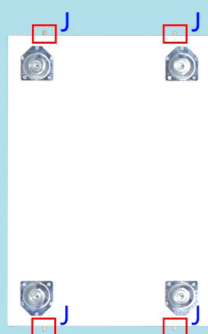

<5>

The drawer part has been installed successfully!

<1>

The hole is facing downwards.

<2>

<9>

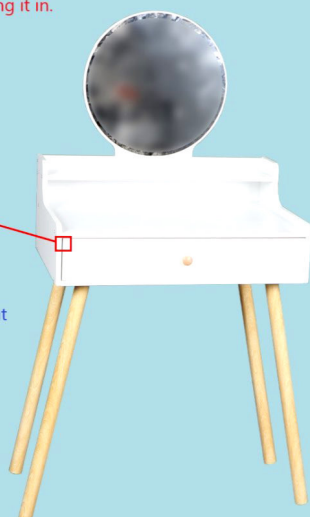

Method 1: Insert a metal pin after pushing the drawer in.

Method 2: Insert the metal pin and then tilt the drawer at a 45-degree angle before pushing it in.

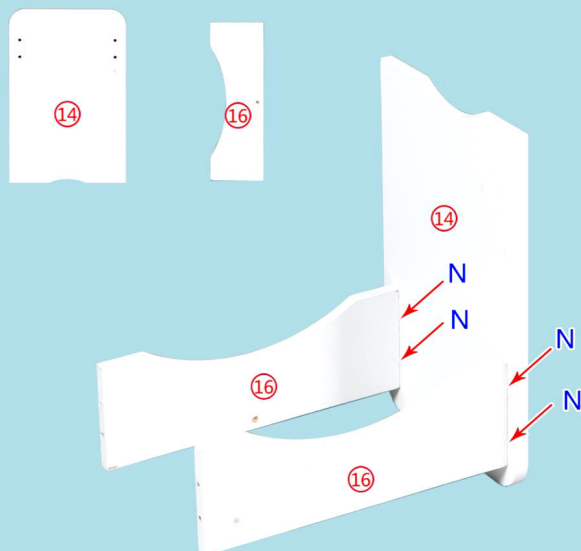

Insert metal pin

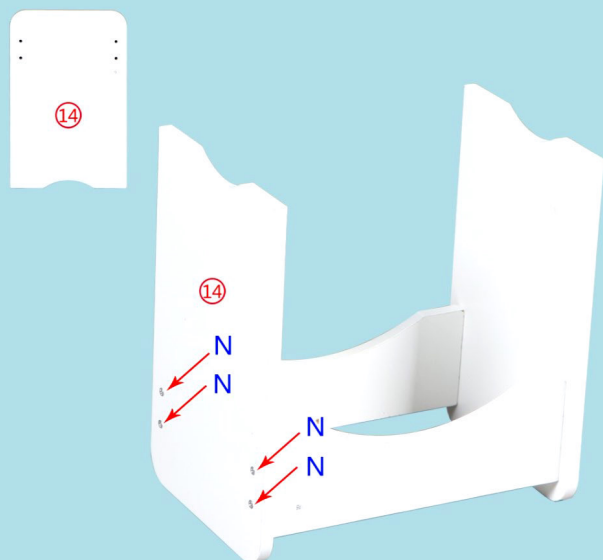

The function of the metal pin is to prevent the drawer from falling out when it is being pulled.
